

Vikas Pandey

AI/ML Engineer

Delhi, India | +91 9518052421 | vikaspandey.ai@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

AI/ML Engineer with hands-on experience in NLP, OCR, Machine Learning, and Generative AI applications. Experienced in building intelligent document processing systems, RAG pipelines, backend APIs, and healthcare AI solutions using Python, FastAPI, Hugging Face, TensorFlow, and PyTorch. Strong interest in Natural Language Processing, model training, evaluation, and AI research.

Technical Skills

Languages: Python, C++, SQL, R

AI/ML: NLP, Machine Learning, Deep Learning, Computer Vision, OCR, Generative AI, LLMs, RAG, Model Evaluation, Data Preprocessing, Feature Engineering

Frameworks: FastAPI, Django, Flask, TensorFlow, PyTorch, Scikit-Learn, Hugging Face Transformers

Tools: Git, GitHub, MongoDB, MySQL, Jupyter Notebook, REST APIs, Vector Databases

Experience

DrsMinds TruSignal Pvt. Ltd.

Nov 2025 - Mar 2026

Machine Learning Intern

- Developed healthcare AI workflows using Python, FastAPI, OCR, and NLP.
- Integrated AI models with backend APIs to support medical document processing workflows.
- Assisted in evaluating AI/NLP models and improving document processing accuracy through experimentation and testing.
- Built automated pipelines for data extraction, validation, data preprocessing, and feature engineering.
- Supported model evaluation, deployment, and workflow optimization for healthcare AI applications.

Projects

Doctor AI – Multilingual Healthcare Assistant

- Developed a FastAPI backend integrating OCR, NLP, and multilingual voice interaction.
- Built AI workflows for medical report interpretation and healthcare automation.

DocMind AI – RAG Backend

- Designed a backend architecture for Retrieval-Augmented Generation (RAG) using document-based retrieval.
- Developed a document extraction and classification pipeline for PDF, DOCX, and TXT files.

NLP Intelligent Bot

- Built and tested NLP models for document summarization, Named Entity Recognition (NER), and sentiment analysis using Python and Hugging Face Transformers.
- Built Django-based NLP application for intelligent document processing.

Extracurricular

PACS Central Committee

Treasurer

- Managed budgets and official documentation for college-level events.

Sports Committee

Convener

- Coordinated volunteers, logistics and scheduling for sports events.

Education

B.Tech, Artificial Intelligence & Machine Learning

Amritsar Group of Colleges | 2022–2026

12th: 83.4% | 10th: 76.2%

Certifications

• Python • SQL • Power BI • Flask & Django • Generative AI
Data Science, Machine Learning, Deep Learning & NLP Bootcamp
