Professional Summary

AI/ML Engineer with internship experience developing healthcare AI applications using Python, FastAPI, NLP and OCR. Skilled in AI model integration, backend API development, intelligent document processing and workflow automation. Familiar with Generative AI, Large Language Models (LLMs) and Retrieval-Augmented Generation (RAG).

Technical Skills

Languages: Python, SQL, C++, R

AI/ML: Machine Learning, Deep Learning, NLP, Computer Vision, OCR, Generative AI, LLMs, RAG

Frameworks: FastAPI, Django, Flask, TensorFlow, PyTorch, Scikit-Learn, Hugging Face Transformers

Tools: Git, GitHub, MongoDB, MySQL, Jupyter Notebook, REST APIs

Experience

Machine Learning Intern

Nov 2025 – Mar 2026

DrsMinds TruSignal Pvt. Ltd.

- Developed healthcare AI workflows using Python, FastAPI, OCR and NLP.
- Integrated AI models with backend APIs for medical document processing.
- Built automated pipelines for data extraction, validation and preprocessing.
- Supported AI model testing, deployment and workflow optimization.

Projects

Doctor AI – Multilingual Healthcare Assistant

- Developed FastAPI backend integrating OCR, NLP and multilingual voice interaction.
- Built AI workflows for medical report interpretation and healthcare automation.

DocMind AI – RAG Backend

- Designed backend architecture for Retrieval-Augmented Generation (RAG).
- Developed document extraction and classification pipeline for PDF, DOCX and TXT.

NLP Intelligent Bot

- Developed document summarization, Named Entity Recognition (NER) and sentiment analysis using Hugging Face Transformers.
- Built Django-based NLP application for intelligent document processing.

Leadership

Treasurer – PACS Central Committee

- Managed budgets and official documentation for college-level events.

Convener – Sports Committee

- Coordinated volunteers, logistics and scheduling for sports events.
